

Plateaued? Looking for a better fit, a better location, a better future? Take your career to the next level with Rainbow Tree Company. If you enjoy technical work, climbing large full canopy trees, taking a unconventional approach to a seemingly rigid industry, and being a part of a fun-loving, caring outfit, committed to growth, Rainbow Tree Company could be your next step.

We have a **Foreman Technical Field Arborist (Climbing Foreman Arborist)** and **Technical Field Arborist (Climbing Arborist)** openings!

Benefits include training and mentorship in advanced climbing techniques like SRT and dDrt, technical rigging and lifting, crane supported work, leadership and management skills, and tree preservation plus a competitive wage, retirement plan with company match, health care assistance, and flexibility with time off.

We are a full-service tree care company working in the greater Minneapolis and St. Paul area. Our growth continues, and we need to add additional team members. We are looking for an experienced tree climber who can perform all aspects of general tree work safely and efficiently and who is capable of leading a crew effectively. Applicants should be career-minded and interested in the prospect of playing a significant role in the continued growth of our company in the upcoming years.
