

WHO WE ARE

The Minnesota Society of Arboriculture (MSA) is a leader in community forestry throughout our state.

We foster a passionate and professional community for those who care for trees. Through education we advance the practice, science, and technology of tree care.

MSA is a chapter of the International Society of Arboriculture. Its members include arborists, urban foresters, municipal and utility foresters, professional tree workers/climbers, academia and others interested in all aspects of arboriculture and the health and care of Minnesota trees.
