

TREEHUGGER TREE CARE, INC

Owner and Operator: Jason S. Pruett
612-444-3494 EXT. 1 thetrehugr@yahoo.com

Certified Arborist: MN-4266A, CTSP: #648, EHAP

"Arborist foreman, left hand man, and do it yourselfer."

I am an owner operated, certified arborist, professional tree health care company looking for one responsible, flexible, loyal, and hardworking person to fill the roll of arborist foremen and "left hand man" of Jason. We offer ALL arboriculture services to clients and the job is structured in a way that each month we are busy with many different tree care needs and projects for our loyal client base. Typically we take some time off in the winter months to recharge the batteries. Longer hours are common during the "tree leaf season," but can be flexible with your PTO, passions, and hobbies.

Ideally a candidate will have over 5 years experience in the arboriculture business and is familiar with all tree care operations, able to give directions to other staff members, and have experience in fixing tree care equipment. Common climbing and bucket experience is preferred, along with treating insect, fungus, and disease experience helpful, but we can train. Half of your days may be working independently on various projects, the other half caring and tending to trees.

Candidate basic requirements:

- Class A or B Drivers License
- Be knowledgeable with ISA standards, OSHA Safety Regulations, ANSI A300 and Z133 standards.
- Valid MN Dept of Ag. Commercial Pesticide Applicators license.
- Current ISA Certified Arborist Certification.

You will need to be a decent high angle climber and/or bucket operator, be familiar with PHC protocols, and be able to diagnose disease, tree care problems, and concerns. If you have a care for common values, ability to learn quickly, and have a solid work ethic, I would enjoy to hear from you.

Position desires the following:

- 1) Mechanically minded, able to fix things that need fixing. Enjoy using heavy equipment.
- 2) Self motivated, but have the ability to take directions.
- 3) Healthy, fit, hardworking, and able to work long and heavy lifting days.
- 4) On-time, responsible, and able to follow through with directions.
- 5) Ability to use common sense, follow routines, and make quick, safe decisions.
- 6) Communicate in a assertive, professional, and caring way.
- 7) Drug and chemical free, cleanly groomed, non-smoker.
- 8) Have goals and willingness to continue educating yourself.
- 9) Work in unpredictable and extreme weather conditions.

We offer workers comp protection for all employees, SEP retirement plan, and a benefit package after 3 months with competitive hourly pay.

Please attach resume and send a detailed e-mail thetrehugr@yahoo.com describing your abilities to fit this role.

Thanks for your consideration.
