

Looking for a place where you can thrive?

SavATree's mission is to take our passion for nature and keep our outdoors beautiful and flourishing. Through our comprehensive tree, shrub, and lawn care we work hard to make sure our discerning customers have attractive, healthy and cared-for green spaces to enjoy. Over the last thirty years, we have opened new offices across the country, and we are looking for people who want to grow with us.

This very unique position is a combination of a Grapple Truck Operator and a Tree Climber. As a Grapple Operator, you're performing the final thorough pick up and safe haul away of debris from our job sites. When performing the role of General Tree Care, you'll be the muscle of our operation. These industrial athletes work together to provide high-quality tree care, helping to maintain and preserve the overall health of our clients' landscapes.

In this role, you will have the opportunity to work outside and visit beautiful properties in your community. You'll apply your expertise in safely driving and operating our Grapple Truck, as well as climbing, pruning, and safety to ensure the health and well-being of each client's landscape.

We want everyone to be able to identify and achieve their own version of success, which means giving each employee the room and opportunity to grow. To ensure that everyone has the best chance to succeed, we invest heavily in training and continuing education. We make it easy for you to reach out and get the help you need, even when it's from the other side of the country. We pride ourselves on creating an environment where each employee has the resources and opportunities to advance his or her career and become a go-to subject matter expert. ***That's why we often say that when you work here, you thrive here.***

What a day is like:

You will be involved in all aspects of pruning, removals, cable bracing and other concepts related to tree care. There may be times where you do General Tree Care all day, and other times where you're driving and picking up logs and debris all day. You'll be able to safely operate all equipment and perform the assigned job tasks while also providing excellent service to our clients.
