

Position: [Utility Vegetation Management Project Manager – Iowa and Minnesota area](#)  
Starting Date: **Immediately (Applications accepted until suitable candidate is selected.)**

Take ownership of your career. We are seeking QTC leaders who are excelling in Utility Vegetation Management and have the desire to move to the next level! Advance from conducting quality audits and work planning to interacting with clients on strategic initiatives. Become part of our energetic workforce, build your career, and emerge as a leader in the green industry. This position is for the adventurous and passionate!

**What you'll do:**

- Successfully contribute to all aspects of vegetation management planning and analysis.
- Be responsible for successful completion of client project goals.
- Maintain staffing levels to achieve project schedule expectations.
- Implement robust training and QC processes to ensure work quality.
- Oversee multiple supervisors and support their efforts to achieve project goals.
- Utilize innovative technology and practices to help major electric utility providers deliver safe and reliable power and maintain national security.
- Coordinate with clients, internal management, and planners to create customized solutions.

**What you'll need:**

- 2-3 years of utility right of way vegetation management experience.
- Previous project supervision experience.
- Desire to adapt to and participate in the development of an emerging UVM program.
- Demonstrated expertise in problem solving, meeting deadlines, and technical innovation.
- Excellent communication and interpersonal skills.
- Availability and desire to travel throughout the utility service area.
- Valid Driver's License with clean DMV driving record and ability to drive and operate a 4x4 vehicle.
- Ability to identify local tree species & growth rates.
- Organizational skills; working knowledge of computers and programs, file creation, manipulation, and sharing.
- Preferred: Two or Four-year degree in Forestry, Urban Forestry, Horticulture or related discipline.
- Preferred: Relevant pesticide and/or Herbicide licenses and certificates, if required by state law.
- Preferred: ISA Certified Arborist®, ISA Utility Specialist®, Registered Professional Forester (RPF), Utility Right-of-Way Vegetation experience.

**What you'll get:**

- Recession-resilient career opportunities tailored to your objective with a company identified by Forbes as one of America's Best Employers.
- Opportunity to work for and become an employee-owner with the largest employee-owned service company in the country.
- An innovative and success-driven work environment that provides an excuse to be enthusiastic every day.
- The opportunity to work in America's great outdoors with teammates that will support your professional growth and managers who empower.
- Career Development Program supported by Industry Expert Safety Specialists & Skills Trainers through the Davey Institute of Tree Science.
- A F Plan vehicle for commuting purposes & cell phone.
- Competitive wages based on qualifications and experience and excellent benefits including health, dental, vision & life insurance.
- Scholarship Program for Children of Employees.
- Charitable matching gift program.
- Discounted stock purchase options & 401(k) retirement savings plan with a company match.
- Paid time off and paid holidays.
