

Seth Huber

ISA Council of Representatives

About Me

I have worked in the residential and commercial side of urban forestry for over 15 years. I went to school for Urban forestry, have been a certified arborist for over 10 years and have been CTSP for 2 years. I have my Crane operator license through NCCER and am currently running the sales team at Birch Tree Care. I have experience in both Plant Health Care and Tree Pruning/Removal. I volunteer time at Climbing Events across the US and have attended many Workshops such as TCIA Expo, Shade Tree Short Course, MSA Events, RAW and many others.

How can you contribute to the MSA Board of Directors?

Networking with the industry has helped create many friends which has improved ideas and habits within Birch Tree Care. I can contribute by sharing new ideas and policies that have helped other businesses grow and the ideas that ended up hurting.

Why do you think you would make a good board member?

I have been a member with the MSA for a number of years and I have attended many events. I think becoming a board member would be a great opportunity to give back to the industry and help us grow as a leader in the green industry.
