

# Bryan Gilles

## Vice President / President-Elect

### About Me

I have worked in the industry for 30 years with 18 of it being owner of Arbor Doctor. My mission has always been to be a person who speaks for the trees with all plans to put them first. As owner of Arbor Doctor my role started as a technician mostly and as time has passed, I've expanded into mostly education, referrals and creating plans to benefit the trees on people's properties.

As an ISA Board Certified Master Arborist and TRAQ arborist I have dedicated myself to the knowledge of the industry and never settling for less than the best. This winter I will continue my journey as I look to become an RCA. My goals in becoming involved with MSA would be to help better educate homeowners, tree services about trimming practices.

### How can you contribute to the MSA Board of Directors?

Years of field knowledge teamed with knowledge gained from any source around me has pushed me to become better on a daily basis. When you have given as much to the industry it is easy to want to find a bigger path to provide guidance to all seeking it.

### Why do you think you would make a good board member?

I dedicate myself to showing up and being on time. Having goals and working towards a mission is a daily practice in being a business owner. I'm not afraid of change even if it is hard or scary. I often head off problems and create the best solutions I can within the time periods I have to do so.
